# TRAFALGAR DEVELOPMENT BANK LIMITED

Notes to the Financial Statements

31 December 2001

## 1 Identification and Principal Activities

The company operated as an approved venture capital company for the purposes of the Income Tax Act up to December 2000.

The company's principal activities involve the financing of equipment leases and providing loans. It is a subsidiary of First Life Insurance Company Limited. The ultimate parent company is Pan-Jamaican Investment Trust Limited.

All these companies are incorporated in Jamaica.

The company disposed of its 51% shareholding in Trafalgar Commercial Bank Limited in December 2000. Effective 1 January 2001, in pursuance of a scheme of reorganisation comprised in an Agreement for Exchange of Shares, the company acquired 100% shareholding in Pan Caribbean Merchant Bank Limited.

The company changed its accounting date from 30 September to 31 December in order to coincide with the accounting date of its parent company. Accordingly, these financial statements cover a period of fifteen months. The comparative period is for twelve months.

All amounts in these financial statements are expressed in Jamaican dollars unless otherwise stated.

## 2 Significant Accounting Policies (a)Basis of preparation

These financial statements have been prepared in accordance with the provisions of the Companies Act and the Financial Institutions Act, and comply with Jamaican Accounting Standards. These financial statements have been prepared under the historical cost convention.

## (b) Basis of consolidation

The group's financial statements include the financial statements of its 51% owned subsidiary, Trafalgar Commercial Bank Limited up to the date of disposal of that subsidiary and its 100% owned subsidiary, Pan Caribbean Merchant Bank Limited, from the date of acquisition of that subsidiary. Both companies are incorporated in Jamaica.

The subsidiary is licensed under the Financial Institutions Act 1992.

## (c)Use of estimates

The preparation of financial statements in conformity with Jamaican generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

## (d) Foreign currencies

- (i) Transactions during the period are converted at the rates of exchange prevailing on the transaction dates.
- (ii)Assets and liabilities denominated in foreign currencies are translated into Jamaican dollars at rates of exchange prevailing at the balance sheet date. Gains and losses arising from fluctuations in exchange rates are included in the profit and loss account.
- (iii) Where foreign currency assets are specifically acquired to match foreign currency liabilities either in whole or in part, the translation gains or losses are netted and the difference taken to the profit and loss account.

## (e) Financial instruments

Financial instruments carried on the balance sheet include cash resources, investments, long term loan receivables, loans to customers, lease receivables, all other assets

excluding fixed assets and goodwill arising on consolidation, deposits by customers, and all other liabilities. The fair values of the group's financial instruments are discussed in Note 25.

## (f) Interest and fees

Interest income and expenses are recognised on the accrual basis, except that where collection of interest income is considered doubtful or payment of interest is outstanding for more than 90 days, interest is taken on the cash basis. Accrued interest on loans which are in arrears for 90 days and more is excluded from income.

Project fee income is recorded as income when loan agreements are signed and funds are committed for disbursement.

### (g) Cash and cash equivalents

For the purposes of the cash flow statement, cash and cash equivalents relate to cash resources, which comprises cash in hand and money on call at Bank of Jamaica.

## (h) Investments

Investments in the company are stated at the lower of cost and net realisable value. Investments in the subsidiary are shown at cost.

Where there is a diminution in the value of an investment, it is recognised as an expense in the period in which the diminution is identified. On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the profit and loss account.

#### (i) Provision for credit losses

The group maintains an allowance for credit losses, which consists of specific provisions and general provisions for doubtful credits.

Specific provisions are established as a result of reviews of individual loans and are based on an assessment which takes into consideration all factors, including collateral held and business and economic conditions.

General provisions for doubtful credits are established against the loan portfolio in respect of the group's core business lines where a prudent assessment by the group of adverse economic trends suggests that losses may occur, but where such losses cannot yet be determined on an item-by-item basis.

### (j) Fixed assets and depreciation

- (i) Fixed assets are recorded at cost and are stated at historical cost less depreciation.
- (ii)Depreciation is provided on the straight-line basis at such rates as will write off the carrying value of the assets over the period of their expected useful lives. The following rates are used: -

| Office equipment       | 10%     |
|------------------------|---------|
| Motor vehicles         | 20%     |
| Leasehold improvements | 20%     |
| Computer equipment     | 33 1/3% |

(iii)Gains and losses on disposal of fixed assets are determined by reference to their carrying amount and are taken into account in determining operating results.

#### (k) Leases

Lease income is derived from finance leases and is recognised over the period of the lease on the actuarial or reducing balance method. This method provides a constant rate of return on the remaining net investment in the lease. Unearned income from finance leases represents the income element of lease payments collectible in future accounting periods.

## (1) Deferred taxation

Deferred taxation is recognised in these financial statements only to the extent that the timing differences are considered likely to reverse in the foreseeable future.

#### (m) Acceptance under guarantees and letters of credit

Liabilities under acceptances in respect of guarantees, commitments and letters of credit are reported as a liability in the balance sheet. Equal and offsetting claims against customers in the event of a call on these commitments, are reported as an asset.

## (n)Assets purchased/sold under resale/repurchase agreements

A repurchase agreement/reverse repurchase agreement is a short term transaction whereby securities are sold/bought with simultaneous agreements for reselling/repurchasing the securities on a specified date and at a specified price.

The purchase and sale of securities under repurchase/reverse repurchase agreements are treated as collateralised lending and borrowing transactions. The related interest income and interest expenses are recorded on the accrual basis.

## (o) Employee benefit costs

Contributions by the Group to fund benefits under the pension scheme are actuarially determined and include amounts to fund future service benefits, expenses and past service benefits. Contributions are charged as an expense in the year in which they are due.

## (p)Comparative information

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.

### 3 Net Securities Trading Income and Gains

|                              | The Group      |              |  |

| 31 December 30 September | r 31 December 30 September |  |

|                           | 2001<br>\$'000 | 2000<br>\$'000 | 2001<br>\$'000 | 2000<br>\$'000 |
|---------------------------|----------------|----------------|----------------|----------------|
| Redundancy cost           | 24,801         | -              | 24,801         | -              |
| New accommodation expense | 924            | -              | 163            | -              |
| Professional fees         | 4,037          | -              | 3,903          | -              |
|                           | 29,762         | _              | 28,867         | _              |
|                           |                |                |                |                |

## 7 Taxation

The company was relieved from taxation up to December 2000 arising from their approved venture capital status up to that time. Subsequent to that date taxation is based on the profit for the period adjusted for taxation purposes.

Income tax is computed at 33 1/3% of the profits for the period adjusted for tax purposes and comprises:

|   | The Group    |              |
|---|--------------|--------------|
|   | Fifteen      |              |
|   | Months ended | Year ended   |
|   | 31 December  | 30 September |
|   | 2001         | 2000         |
|   | \$'000       | \$'000       |
| Provision for current year charge             | -            | -            |
| (Over)/under provision of prior year taxation | (1,027)      | 5            |
|   | (1,027)      | 5            |
|   | ======       | =====        |

The tax charge is disproportionate to the reported results for the current period, mainly because tax-free interest income was excluded in arriving at the taxable income. Subject to agreement with the Taxpayer Audit and Assessment Department, losses available for carry forward and offset against future profits of the company and its subsidiary at 31 December 2001 were \$35,396,000 and \$32,549,000, respectively (2000 - \$Nil).

## 8 Net Profit/(Loss) and Retained Earnings

The net profit is dealt with in the financial statements as follows:

## Fifteen

|   | Months ended<br>31 December 3<br>2001<br>\$'000 |                   |
|---|---|-------------------|
| The company -<br>Profit and loss          | (30,531)  | (15 <b>,</b> 775) |

|   | =======                       |                                |

## 9 Earnings Per Stock Unit

The calculation of earnings per stock unit (EPS) is based on the group's net profit or loss for each period and the number of shares in issue in respect of that period as shown below. The shares in issue for the period ended 31 December 2001 used in the computation represents the weighted average shares in issue for the period. The shares in issue were weighted to reflect the effect of the shares issued during the period in pursuance of the Exchange of Shares Agreement (Note 20).

| 31 | December | 30 | September |
|----|----------|----|-----------|
|    | 2001     |    | 2000      |

#### 12 Long Term Loans

| -   | The Group &                   | The Company                    |
|---|-------------------------------|--------------------------------|
|   | 31 December<br>2001<br>\$'000 | 30 September<br>2000<br>\$'000 |
| Deutsche Investitions-und<br>Entwicklungsgesellschaft mbH (DEG) | 161,479                       | 152,707                        |
|   |                               | ========                       |

In June 1997, the company entered into a foreign currency arrangement with DEG, a major shareholder and a provider of long term finance to the company. Under the agreement, the company borrowed from DEG, USS4,351,610 (the equivalent of DM 7,500,000) and immediately made a corresponding loan to DEG in the amount of DM 7,500,000 repayable in year 2012, the intention being that this loan to DEG is to hedge against the exchange risk which the company is exposed to in respect of an earlier DM loan from DEG and which is also repayable in year 2012 (Note I7(b)). Interest on the loan to DEG is at 6% per annum and interest on the loan to the company is at 8 1/8% per annum and is included in long term liabilities (Note 17). In 2001 the loan to DEG and the loan to the company were converted to European currency. The balances are EUR 3,834,689 at the year end.

The company does not trade in foreign currency swaps and the above arrangement was entered into to reduce the impact of fluctuating currency rates and related foreign currency exposure.

The foreclosed asset balance represents the carrying value of a property foreclosed by the company, which was used as security for a customer's loan. The value at which the property is recorded represents loan principal plus interest accrued to the date of foreclosure less provision. An agreement for the sale of property was entered into by the company subsequent to the period end.

Other assets include the subsidiary's contribution to the National Housing Trust amounting to \$Nil (2000 - \$49,567), recoverable in the years 2001 to 2004.

#### (a) United States Agency for International Development (USAID)

Under the terms and conditions of the USAID loan agreements, the company may prepay all or part of the principal if the interest due is fully paid and up to date. The loans are repayable in Jamaican dollars to the Government of Jamaica at the rate of exchange that was in effect at the time USAID disbursed the loan funds. The loan agreements further require that the company:

- (a) provide an annual reserve for loan losses of a minimum of 3% of average loans outstanding; and
- (b) restrict ownership by any individual, association or company to a maximum of 15% of voting shares of the company.

Approval was granted during the period for the company to remove the above restriction on ownership.

#### (b) Deutsche Investitions - und Entwicklungsgesellischaft mbH (DEG)

Under the terms of the DEG Loan Agreement, the loans totalling DM 14,500,000 are to be applied for the financing of medium and small-scale enterprises.

Loan #1 - DM 7,000,000 disbursed 1990.

This loan is repayable in Jamaican dollars to the Government of Jamaica at the rate of exchange that was in effect at the time DEG disbursed the loan funds. The interest rate of 6% consists of 3 portions, A-portion, B-portion and C-portion. The A-portion shall be 0.75% per annum and remitted in DM by the Ministry of Finance. The B-portion shall be 1.5% per annum and shall be remitted in J\$ to the Ministry of Finance for exchange risk coverage. The C-portion shall be 3.75% per annum and payable in J\$ out of the operating surplus of the company, paid to a special fund termed "The

Trafalgar German Fund I".

Loan #2 - DM 7,500,000 disbursed 1993.

This loan is repayable in foreign currency. The interest rate of 6% per annum consists of an A-portion and a B-portion. The A-portion shall be 0.75% per annum and shall be remitted in DM to DEG. The B-portion shall be paid to a special fund termed "The Trafalgar German Fund 11". The fund is to be used primarily for the coverage of foreign exchange losses incurred by TDB should these funds be converted to Jamaican dollars, and for other technical assistance.

The third loan of US \$4,351,610 (Note 12) was under a foreign currency hedging arrangement with DEG. It is repayable in 10 semi-annual instalments commencing March 1999.

## (c) European Investment Bank (EIB)

The EIB has established in favour of the company, credit in the amount of EUR 1,000,000 for the financing of projects through equity participation in small and medium sized enterprises.

The company shall repay the loan in respect of amounts disbursed under each allocation, the Euro equivalent of one half of the net amount of dividends received by the company in respect of the corresponding equity participation during the preceding calendar year.

The outstanding balance of the loan after the payments due on 31 March 2010 shall be discharged in full by the payment of the adjusted loan balance by five equal annual instalments beginning on 31st March 2011. Repayment may either be in Euro or one or more currencies of the member states of the European Economic Community and shall be calculated as the Euro equivalent of the Jamaican dollar liability using exchange rates between the Euro and the selected currencies prevailing on the thirtieth day before the date of payment,

An additional facility was established in the amount of EUR 5,000,000. The loan was disbursed to the company in tranches. Interest, repayments and other charges payable in respect of each tranche will be remitted in the same currency as that in which the tranche was disbursed.

In 1999, an additional facility was established in the amount of EUR 3,000,000, for the financing of projects through equity participation in small and medium sized enterprises. To date total disbursement stands at EUR 1,110,000.

On the outstanding balance of the loan, the company shall repay in each year a sum representing the equivalent in Euro of 50% of the dividend (if any) received in respect of the corresponding equity participation during the preceding calendar year.

#### (d) Commonwealth Development Corporation (CDC)

The company obtained two loans from the CDC. The first loan £:4,000,000 sterling was disbursed to the company in Pounds Sterling. A portion of these funds is held as collateral security for the short term United States Dollar loans from Barclays Bank, Miami (Note 17(f)). The remainder of these funds was on-lent to borrowers and was repayable in Sterling as were the principal and interest due to CDC.

The second loan for US\$6,000,000 was on-lent to borrowers in United States Dollars and was repayable by the borrowers in United States Dollars as were the principal and interest due to CDC.

#### (e) Development Bank of Jamaica Limited (DBJ)

The agreement with the Development Bank of Jamaica Limited allows DBJ, at its absolute discretion, to approve J\$ financing to the company for on-lending to farmers, other agricultural projects and development projects on such terms and conditions as DBJ may stipulate.

Funds disbursed to the company bear interest at DBJ's lending rate prevailing at the date of approval of each disbursement unless otherwise varied by DBJ.

#### (f)Barclays Bank

The loans with Barclays Bank are denominated in U.S. Dollars and are secured by Sterling deposits (Note I7(d)).

#### (g) Dehring, Bunting & Golding Limited (DBG)

The loans with Dehring, Bunting & Golding Limited were denominated in U.S. Dollars and were evidenced by Promissory Notes.

#### (h) Jamaica Exporters' Association (JEA)

The agreement with Government of Jamaica and the World Bank in association with the Jamaica Exporters' Association allows TDB the facility to borrow up to

US\$4,400,000 for on-lending to private enterprises seeking funding for export development projects. The loans are repayable in foreign currency within 5 years of the date of each individual advance, the first instalment being due August 1998.

#### (i) Caribbean Development Bank (CDB)

The agreement with the Caribbean Development Bank (CDB) provides the company with a credit facility of US\$5,000,000 for on-lending to development projects on such terms and conditions as CDB may stipulate. The funds are repayable in foreign currency and had a two-year moratorium in respect of principal repayments, which commenced in 1996.

#### 18 Sundry Liabilities

During the period, the authorised share capital of the company was increased to \$260,613,000 by the creation of an additional 140,613,376 ordinary shares of \$1 each. In January 2001, shares totaling 140,613,376 units were issued to FirstLife Insurance Company Limited in pursuance of a scheme of reorganisation comprised in an Agreement for Exchange of Shares in consideration for FirstLife's 100% shareholding in Pan Caribbean Merchant Bank Limited.

## 21 General Reserve

The reserve has been created by the capitalisation of grants received from USAID and DEG for the purchase of equipment and other assets. The reserve is being written off to the profit and loss account by the amount of annual depreciation provided on the equipment.

The balance comprises:

## 25 Financial Instruments (a) Fair values

Fair value represents an estimate of the consideration that would currently be agreed upon between knowledgeable, willing parties who are under no compulsion to act and is best evidenced by a quoted market price, if one exists. Many of the group's financial instruments lack an available trading market. Therefore, these instruments have been valued using present value or other valuation techniques and may not necessarily be indicative of the amounts realizable in an immediate settlement of the instruments. In addition, the calculation of estimated fair value is based on market conditions at a specific point in time and may not be reflective of future fair values.

Changes in interest rates are the main cause of changes in the fair value of the group's financial instruments. The majority of the group's financial instruments are carried at historical cost and are not adjusted to reflect increases or decreases in fair value due to market fluctuations, including those due to interest rate changes.

The following tables set out the fair values of on-balance sheet financial instruments of the group and the company using the valuation methods and assumptions described below. The fair values disclosed do not reflect the value of assets and liabilities that are not considered financial instruments, such as fixed assets.

## Fair values were estimated as follows:

The fair values of cash resources, sundry assets, cheques and other instruments in transit, customers' liability under guarantees and letters of credit, securities purchased/sold under agreements to resell/repurchase, lease receivables and sundry liabilities are assumed to approximate their carrying values, due to their short-term nature.

The fair value of investments is assumed to be equal to the estimated market value of investments. These values are based on quoted market prices, when available; when not available other valuation techniques are used. The estimated fair value of loans to customers is assumed to be the principal receivable less any provision for losses.

The estimated fair value of long term loan and due to financial and other institutions reflects changes in the general level of interest rates that have occurred since the

transactions originated. The particular valuation methods used are as follows:

- (i)For floating rate loans, fair value is assumed to be equal to book value as the interest rates on these loans automatically reprice to market.
- (ii) For match funded loans the fair value is assumed to be equal to their carrying value as gains and losses offset each other.
- (iii)For all other loans, fair value is ascertained by discounting the expected future cash flows of these loans at current market rates for loans with similar terms and risks. It is management's opinion that the existing rates are comparable to current rates that could be negotiated with the lenders.

The fair value of obligations under finance lease and deposits which are payable on demand or notice are assumed to be equal to their carrying values. The fair values of fixed rate deposits payable on a fixed date are determined by discounting the contractual cash flows, using market interest rates currently offered for deposits with similar terms and risks.

The book value of financial assets and financial liabilities held for purposes other than trading may exceed their fair value due primarily to changes in interest rates. In such instances, the group and the company do not reduce the book value of these financial assets and financial liabilities to their fair values as it is the group's and the company's intention to hold them to maturity.

## (b) Liquidity risk

The tables below analyse assets and liabilities of the group and company into relevant maturity groupings based on the remaining period at balance sheet date to the contractual maturity date.

The matching and controlled mismatching of the maturities and interest rates of assets and liabilities are fundamental to the management of the group. It is unusual for financial institutions ever to be completely matched since business transacted is often of uncertain term and of different types. An unmatched position potentially enhances profitability, but can also increase the risk of losses.

The maturities of assets and liabilities and the ability to replace, at an acceptable cost, interest-bearing liabilities as they mature, are important factors in assessing the liquidity of the group and its exposure to changes in interest rates and exchange rates.

|                      | The Group |                 |                  |                  |                  |  |  |

## (c) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates.

The group and the company are exposed to interest rate risks associated with the

effects of fluctuations in the prevailing levels of market interest rates on their financial positions and cash flows.

The tables below summarise the group's and the company's exposure to interest rate risk. Included in the tables are the group's and the company's assets and liabilities at carrying amounts, categorised by the earlier of contractual repricing or maturity dates.

|                        | The Group        |                  |                  |                  |                  |                  |
|------------------------|------------------|------------------|------------------|------------------|------------------|------------------|
|                        |                  |                  |                  |                  | Non              |                  |

## (e)Currency risk

The group and company incur foreign currency risk on transactions that are denominated in a currency other than the Jamaican dollar. The group and company ensure that the net exposure is kept to a minimum by monitoring currency positions and matching foreign assets with liabilities, where possible. The net foreign currency exposure were as follows:

|                              | The Group   |              | The Co        | ompany       |

## 29 Contingent Liabilities

- (a) The company is involved in certain legal proceedings incidental to the normal conduct of business. Management believes that none of these proceedings, individually or in aggregate, will have a material effect on the company.
- (b) The company's former subsidiary, Trafalgar Commercial Bank Limited, has been sued by two of its customers who have alleged that they are not indebted to the subsidiary and have sought declarations to that effect. The suit claims unquantified damages for fraud and breach of contract.

The subsidiary has filed a defence to the claim, denied the allegations and counter-claimed for the debt owing. A trial date has not been set.

The former subsidiary's lawyers are unable to provide a meaningful opinion as to the prospects of success for the subsidiary, as it will depend on oral evidence given at the trial, and the judge's opinion as to the truth of that

evidence.

#### 30 Pension Scheme

The company participates in a pension scheme which is administered by First Life Insurance Company Limited. The scheme is open to all full-time employees and is funded by a basic employee contribution of 5% and a voluntary contribution up to a maximum of an additional 5%. Employer contributions are 5%. Retirement and death benefits are based on accumulated employer and employee contributions.

An actuarial review showed that the scheme was adequately funded, if the employer's contributions are treated as vested liabilities, as at 31 August 1998.

The subsidiary is one of a number of participating employers in a contributory pension plan administered by First Life Insurance Company Limited. Benefits under the plan are based on career earnings. The latest actuarial valuation, which was carried out as at 31 December 1999, indicated that the scheme was adequately funded as at that date.

#### 31 Acquisition and Disposal of Subsidiaries

(a) On 1 January 2001 the company acquired 100% of the share capital of Pan Caribbean Merchant Bank Limited (PCMB). The shares were in pursuance of a scheme of reorganisation comprised in an Agreement for Exchange of Shares. First Life Insurance Company Limited transferred their entire shareholding in PCMB to the company in exchange for 140,613,376 ordinary shares of \$1.00 each. The fair value of net assets approximated to book value of the net assets acquired.

Details of net assets acquired and reserve on consolidation are as follows:

| 2001            |
|-----------------|
| \$'000          |
| 57 <b>,</b> 498 |
| 321,620         |
| 139,858         |
| 53,430          |
| (167,309)       |
| (137,643)       |
| (15,444)        |
|                 |

| Cash and cash equivalents in subsidiary acquired<br>Net cash inflow on acquisition | 57,498<br>57,498     |
|  | ========             |

(b) In December 2000 the company sold its 51% shareholding in Trafalgar Commercial Bank Limited to Grace, Kennedy and Company Limited for \$8,500,000. The sale agreement stipulated that \$1,000,000 of the consideration was payable immediately with the balance due to be paid in equal instalments over five years.

The details of the net assets disposed are as follows:

| The decarrs of the net assets dispos | ed ale as lollows. |
|--------------------------------------|--------------------|
|                                      | \$'000             |
